

**L'Université  
de Montréal  
et de votre  
carrière.**

Université de Montréal has more than 10,000 employees and is one of Canada's Top 100 Employers.

UdeM has Canada's 2<sup>nd</sup> largest student body and ranks among the top five Canadian research universities, receiving more than half a billion dollars in research funding every year.

Through the achievements of the members of its community, UdeM participates in building today's and tomorrow's world.

## **Assistant Professor in Spatial Ecology**

**Department of Biological Sciences / Département de sciences biologiques**

Faculty of Arts and Sciences / Faculté des arts et des sciences

### **Job description**

The Department of Biological Sciences is soliciting candidates for a full-time, tenure-track Assistant Professor position in spatial ecology. The candidate will join the Department of Biological Sciences professors at Campus MIL and will benefit from the research and teaching opportunities provided by the *Station de biologie des Laurentides de l'Université de Montréal*. The selected candidate will develop a research program in spatial ecology aiming to predict the evolution of populations, communities or/and ecosystems in the context of global change.

### **Responsibilities**

The successful candidate will be expected to teach, among others, biostatistics at the undergraduate level and contribute to teaching in computational or quantitative biology at the graduate level, supervise graduate students, be active in research, publishing, and the diffusion of knowledge.

### **Requirements**

- » Ph. D in biology with a specialization in statistics or Ph. D in statistics with a specialization in ecology, or other relevant field.
- » Expertise in spatial and statistical modelling applied to population, community and/or ecosystem ecology.
- » Capacity to integrate approaches in predictive ecology is desirable.
- » Excellent publication record in international journals.
- » Potential for interdisciplinary and developing collaborations with existing members of the department.
- » Demonstrated ability to provide high quality university teaching.
- » An adequate knowledge of the French language (written and spoken) **or** a strong commitment to mastering the French language at the proficiency level required, in accordance with [Université de Montréal's Language Policy](#). An institutional learning support program is offered to all professors wishing to learn French or improve their communication skills.

## How to submit your application

We invite eligible candidates to submit the following:

- » A cover letter
- » Application must include in the cover letter one of the following statements: “I am a citizen / permanent resident of Canada.” or “I am not a citizen or permanent resident of Canada.”
- » A curriculum vitae (CV)
- » Copies of the most recent publications
- » A description of the candidate’s teaching philosophy (maximum one page)
- » A description of the candidate’s research programme (maximum two pages)
  
- » The application package must also include three letters of recommendation. These must be sent directly to the Chair of the Department of Biological Sciences by the referees.
