

Université de Montréal has more than 10,000 employees and is one of Canada's Top 100 Employers.

UdeM has Canada's 2nd largest student body and ranks among the top five Canadian research universities, receiving more than half a billion dollars in research funding every year.

Through the achievements of the members of its community, UdeM participates in building today's and tomorrow's world.

Assistant Professor in Animal Cell and Molecular Physiology

Department of Biological Sciences / Département de sciences biologiques

Faculté des arts et des sciences

Job description

The Département de sciences biologiques is soliciting candidates for a full-time, tenure-track Assistant Professor position in animal biology, with a specific focus in cell and molecular physiology. The Physiology Group at the Université de Montréal conducts research on a diversity of topics including comparative physiology, cell signalling, mitochondrial physiology, developmental biology and plasticity of the nervous system.

Responsibilities

The appointed candidate will be expected to teach undergraduate and graduate courses, supervise graduate students, be active in research, publishing, and the diffusion of knowledge, and contribute to the activities of the University.

Requirements

- Ph. D in Biology or a related discipline
- Strong research record
- » Excellent publication record in the field of animal physiology
- Expertise in modern microscopy techniques is an asset
- Potential for interdisciplinary and developing collaborations with existing members of the department.
- Demonstrated ability to provide high quality university teaching
- An adequate knowledge of the French language (written and spoken) or a strong commitment to mastering the French language at the proficiency level required, in accordance with <u>Université de Montréal's Language Policy</u>. An institutional learning support program is offered to all professors wishing to learn French or improve their communication skills.

How to submit your application

We invite eligible candidates to submit the following:

- A cover letter
- Application must include in the covert letter one of the following statements: "I am a citizen / permanent resident of Canada." of "I am not a citizen or permanent resident of Canada."
- » A curriculum vitæ (CV)
- Copies of the most recent publications
- A description of the candidate's teaching philosophy (maximum one page)
- A description of the candidate's research programme (maximum two pages)
- The application package must also include three letters of recommendation. These must be sent directly to the Chair of the Department of Biological Sciences by the referees.

Additional information about the position

Reference number	FAS 09-19/5_2
Application deadline	Until March 1st, 2019 inclusively
Salary	Université de Montréal offers competitive salaries and a full range of benefits
Starting date	On or after June 1st 2020

Université de Montréal is strongly committed to fostering diversity and inclusion. Through its *Equal Access Employment Program*, UdeM invites applications from women, Aboriginal people, visible and ethnic minorities, as well as persons with disabilities. We will – confidentially – adapt our recruitment mechanisms to the specific needs of people with disabilities who request it. We also welcome applications from candidates of all orientations and sexual identities. All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, priority will be given to Canadians and permanent residents.

Université de Montréal's application process allows all members of the Professor's Assembly to review the application files submitted. If you wish to keep your application confidential until the shortlist is established, please mention it in your application.
